[Appendix 1] Classification for Manufacture Registration of Cylinders, etc.  
[High-Pressure Gas Safety Control Act]

Registration Classification	Cylinders, etc.		
1	Cylinder & Accessories	Seamless steel cylinders	Spinning type
2			Billet type
3			Deep drawing type
4		Seamless aluminum alloy Cylinders	Spinning type
5			Billet type
6			Deep drawing type
7		Welded Cylinders	with internal volume under 500ℓ
8			with internal volume over 500ℓ
9		Cryogenic gas cylinders	with internal volume under 500ℓ
10			with internal volume over 500ℓ
11		Cylinders with internal volume under 500ℓ for LNG vehicles	
12		Welded cylinders	
13		Composite material cylinders	Steel liner
14			Aluminum alloy liner
15			Non-metal liner
16		Cylinders prohibited from refilling for high-pressure gases	
17		Cylinder accessories for high-pressure gases	
18	Specified equipment for refrigeration	Compressors	
19		Vessel typed Pressure vessels	
20	Specified Equipment	Storage tanks for high-pressure gases	
21		Tanks fixed to vehicles(tank lorry) for high-pressure gases	
22-1		Pressure vessels (Heat Exchanger)	
22-2		Pressure vessels (Reactor, Drum, Tower, Others)	
23		Emergency cut-off devices for high-pressure gases	
24		Safety valves for high-pressure gases	
25		Valves for toxic gas pipes	
26		Other cylinders etc.	

[Safety Control and Business of Liquefied Petroleum Gas Act]

※ Category : ■ - A Class (9Man-day), □ - B Class (6Man-day), ▨ - Class (4Man-day)
